The museum's collection is centered on a very specific material. What is it?

Here are some of the objects that are part of the collection, there is an odd one out, circle it.

Find the use for these three objects...

EXAMPLE

LAMP = LIGHTING

Of all the objects you saw, which one did you like best?

Through a playful and educational approach, the ADAM – Brussels Design Museum invites to an experience which will introduce the young and not so young, about its aim and its programme. In collaboration with the pedagogic department of the CIVA, adapted guided tours and workshops are the activities proposed by the ADAM to discover the richness and the diversity of museum collections and its temporary exhibitions.

See our detailed program of events on:
